

# ACCRUEMULATE INVESTMENT GUIDE

# Our E-Wallet makes investing easier

We offer Personal Financial Advice  
alongside with Automated Passive  
Streams of Income in our E-Wallet.

# ABOUT US

Accruemulate is an online Community of private and corporate Investors who refuse to settle for less. The word "Accrue" means; "To increase in number or amount over Time", and the word "emulate" means; to match or surpass".

Unlike the regular Investment Banks, Accruemulate is an Online Automated Investment Wallet on a class of its own, with simplicity, profitability and client satisfaction as our focus, We have set out to help you make the most out of your hard earned money without any hassle.

The Solutions we provide are;

1. Global Access to Automated Earning; There has always been a need for an Investment Manager who operates on a global scale, some locations in the world have no access to Online Investment Advisors and Managers.

To solve this problem, we have created an E-wallet with our Automated Asset Management Algorithm ( AAMA ) to scan the financial markets for profitable opportunities and manage the execution and growth automatically, without needing any input from the Investor (you).

You can access our E-Wallet Services from anywhere on The Planet.

2. Trust; This has been the reason why most Investors still prefer Real Estate to Crypto, Stock and Forex Investments because of the feeling that Real Estate is more physical and tangible, but reverse is the case. Within the Past 5 Years, the Crypto Market alone has risen over 1,000,000% and this has been the fastest growth ever recorded by an Asset in the history of mankind.

To Solve this Problem of Trust; We have a Funds Insurance Program backed by Gold and Real Estate for each Investor, protecting their Capital and Investment up to \$100,000. In addition, we strictly ensure that all our Brokers are Regulated by FINRA or SEC to guarantee security and optimal performance.

3. Financial Freedom; This is the main goal behind the establishment of Accruemulate, 95% of People on earth live on Active Income, only about 5% of people on earth earn Passive Income, and these 5% are Investors.

To Solve This Problem; We look to provide you with multiple streams for earning passive income online, thereby giving you access to become an Investor. We aim at exceeding your financial goals by creating a sustainable long term Plan for Financial Freedom.

# Exchange Traded Funds Portfolio

An Exchange Traded Funds Portfolio is a Digital Investment Vehicle that contains 3 or more Variables of different Crypto Assets.

The Variables are usually High performing Assets carefully handpicked by our Market Analysts.

The Diversified Income Portfolio is meant for Investors who have keen interest in a High Yielding and Low Risk Portfolio that contains some of the most profitable Crypto Assets in our Portfolio.

These are the available ETF portfolios in our E-Wallet.

PORTFOLIO	MINIMUM CAPITAL	RETURN ON INVESTMENT	DURATION
ENTRY	\$1,500	5% weekly	6 Months
PROFESSIONAL	\$10,000	15% weekly	6 Months

# Non-Farm Payroll Portfolio

The non-farm payroll (NFP) report is a key economic indicator for the United States. It is intended to represent the total number of paid workers in the U.S. minus farm employees, government employees, private household employees and employees of nonprofit organizations.

These are the available NFP portfolios in our E-Wallet.

PORTFOLIO	MINIMUM CAPITAL	RETURN ON INVESTMENT	DURATION
ENTRY	\$25,000	350%	3 Months
PROFESSIONAL	\$50,000	400%	3 Months
VISIONARY	\$125,000	500%	3 Months

# Marathon Portfolio

A Marathon Portfolio is a Unique Portfolio of highly performing assets Traded with a strategy that combines Technical Analysis and Fundamental Analysis with very strong indicators like the PPI and CPI to execute in the financial markets for a very high return on Investment within a short period of time.

This is the only available Marathon portfolio in our E-Wallet.

PORTFOLIO	MINIMUM CAPITAL	RETURN ON INVESTMENT	DURATION
NFP + FOMC	\$100,000	750%	3 Months

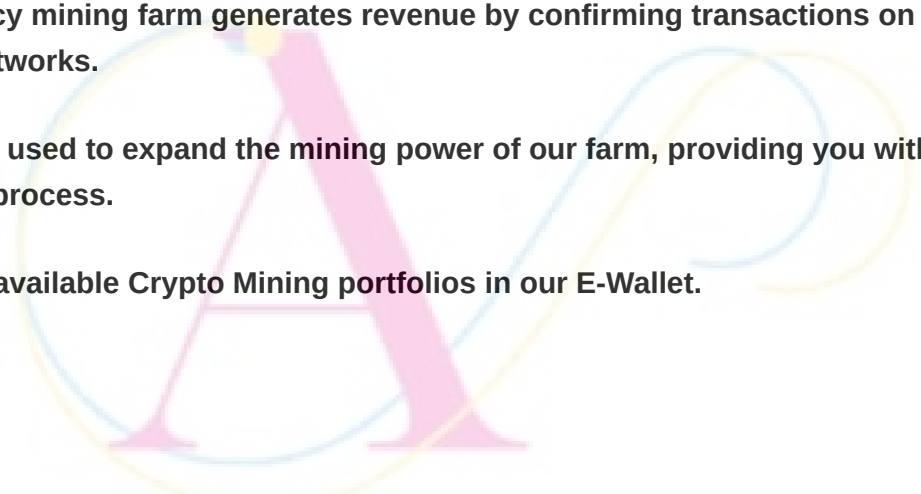

# Crypto Mining Portfolio

We sell Crypto Currency mining Contracts from our Crypto Mining Farm. Our Private Crypto currency mining farm generates revenue by confirming transactions on various blockchain Networks.

Your Capital is used to expand the mining power of our farm, providing you with high returns in the process.

These are the available Crypto Mining portfolios in our E-Wallet.

PORTFOLIO	MINIMUM CAPITAL	RETURN ON INVESTMENT	DURATION
ENTRY	1BTC	100% Monthly	1 Year
PROFESSIONAL	5BTC	200% Monthly	2 Years
VISIONARY	15BTC	350% Monthly	5 Years
