

Accruemulate Exchange Traded Funds Portfolio.

INTRODUCTION TO ETF PORTFOLIOS

[An Exchange Traded Funds](#) Portfolio is a pooled Investment Vehicle that contains 3 or more Variables of different tradeable assets. These assets can either be stocks or crypto currencies.

The Variables are usually high performing assets carefully handpicked by our Market Analysts.

This portfolio is managed on Autopilot by our Electronic Advisor Algorithm, all you need to do as an Investor is to log into your E-wallet regularly to monitor your account growth and withdraw or deposit funds into your Accruemulate E-Wallet

The Diversified Income Portfolio is meant for Investors who have keen interest in a high yielding and low risk portfolio that contains some of the most profitable stocks and crypto assets in our watchlist.

The Diversified Income Portfolio consists of the following Variables

Digital Assets

ETHEREUM (ETH)

TESLA (TSLA)

BITCOIN (BTC)

CARDANO (ADA)

DOGECOIN (DOGE)

BINANCE COIN (BNB)

PORTFOLIO FEATURES

The Exchange Traded Funds Portfolio has a few unique features which makes it to stand out as our highest performing Portfolio over a reasonable period of time.

MONTHLY DEPOSIT & COMPOUNDING

This Portfolio gives you the unique opportunity to add more capital at any time of the month in order to function at full capacity. This Capital will be used to diversify your Portfolio Across 6 of our top performing Digital Assets mentioned above.

Each Monthly Deposit will be added to the previous one to create a Compounding effect on your Investment.

Your Portfolio will be Compounded Quarterly.

RISK MANAGEMENT

This Portfolio will provide you with an entirely Risk-Free Investment because there is no probability that 6 of the Variables will crash. In the event of a global market meltdown, which has never happened in the history of our ETFs, your entire Capital will be refunded.

FIXED RETURNS

This Portfolio Yields a Fixed return on Investment weekly over a minimum of 6 months and a maximum of 5 Years.

DEPOSIT CYCLES & GROWTH PLAN

We offer a unique method for depositing your capital into the ETF Portfolio, this process has been broken down and made into a Monthly Deposit Cycle.

This process means that you can make partial deposits on a monthly basis into your Investment Portfolio.

Your Portfolio will become active once you complete the first Deposit Cycle

THE TRADING PLAN IS CALCULATED AT A FIXED RETURN ON INVESTMENT. THE COMPOUNDING KICKS IN EVERY 6 MONTHS.

THE DETAILED BREAKDOWN ON HOW THIS CAN BE ACHIEVED IS STATED BELOW.

- RISK: 4.5% of Total Account Balance risked per Trade
- REWARD: 18% of the amount Risked per Trade
- RISK TO REWARD RATIO 1:4
- STRATEGY: TL/CTL
- ENTRY STRATEGY: H4 MOMENTUM SIGNAL.
- EXIT STRATEGY: H4 SWIPE

INVESTMENT TIMEFRAME

Your Financial Advisor will help you complete the plan outlined in this portfolio, we'll need approximately 20 minutes of your time to setup an Accruemulate Wallet and Fund it with your Credit Card or Online Transfer.

Our progress depends on your feedback at each milestone. Kindly fill out the Documentation form below so we can get started immediately.

PAYOUT PROCEDURE

Withdrawals only occur after each package duration but in any case an investor wishes to withdraw before the time frame, an emergency fee of 20% will be deducted from your payout.
